

East Central Saskatchewan Association for the Rehabilitation of the Brain Injured Inc.

EC SARBI is proud to be the only rural
acquired brain injury (ABI) rehabilitation
program in Saskatchewan!

EC SARBI currently serves the needs of persons with
moderate-to-severe ABI from within a 100 kilometre
radius of Kelvington.

We provide services to improve and maintain the
physical, social, and recreational well-being of
individuals with acquired brain injuries as well as
providing support for client caregivers.

We provide rehabilitation therapy programs that are
individually designed for survivors of ABI due to falls,
motor vehicle accidents, trauma, stroke, tumor, coma,
or innumerable other causes. Programs are developed
by professional therapists after a thorough
assessment.

Client programming
includes physiotherapy,
speech and language,
cognitive and memory,
occupational and
recreational therapies
as well as social outings
in the community.

Our services are free and we have an open-
referral process, which means that anyone can
refer a client - even the survivor themselves!

EC SARBI Ambulatory Rehabilitation - Introducing New Services Available!

If you have experienced loss of function due to
injury, surgery, or illness, our ambulatory
rehabilitation services may be helpful to you to
help decrease pain, increase strength and
flexibility, and manage daily activities of living.

We provide ambulatory
rehabilitation services for
hip, knee, shoulder
replacements, cardiac and
orthopaedic rehab, sports
injuries, surgeries, chronic
mobility issues and more -
free of charge!

Applicants must be assessed by a physiotherapist
or occupational therapist prior to beginning
program and must have a copy of their assigned
exercise program. Our program is open-referral.

Our services mean
less wait times for
therapy, decreased
hospital stays, and
less out-of-area
travel. Our goal is to
improve the overall
wellness of the
citizens in our area!
